DETAILED ACTION

1. Amendment and response filed by applicants in Paper No. 10, dated Dec. 23, 2003 have been entered and considered carefully. Claims 1-28 newly added claims 29-33 are pending.

2. *Reason for Allowance*

The following is an examiner's statement of reasons for allowance:

Applicants have amended claim 1-27 to the correct position of substitution on the piperidiny ring thus, obviated the 101 rejection. Since this is an apparent error, no new matter was added. The process is neither anticipated nor rendered obvious by the art of record because the starting material for the process i.e. sesamol-tetrabutylammonium salt is neither disclosed nor rendered obvious by the art of record. The closest art is in US 2003/0065172 wherein the tetrabutylammonium salt was used as a catalyst in formation of sulfonylphenol for which no suggestion or motivation to modify such sulfonylphenyl product to sesamol – tetrabutylammonium salt. Claims 1-33 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
